7. Final approval by the Knott County Fiscal Court

I understand that if the proposed road is approved it will become a **public road**. The road will be listed in the Knott County Road index and I **cannot restrict use of the road in any way**. I understand that adoption of a road into the County Road system is a permanent adoption and the road cannot be removed from the Road System with full compliance with the statutory procedures of removal of county roads. I further understand that the adoption of this road by the county may result in the changing of certain addresses of homes located on the proposed road.

The county cannot adopt any road in which access is limited by a gate or other means. Also, the county cannot adopt any road on which any “no trespassing” signs are posted. All such gates and signs need to be removed before adoption by the county.
